As a child progresses in school, we can provide services in a school environment.

## IDENTIFICATION AND LOCATION OF CHILDREN WITH DISABILITIES

The Jackson County School System provides special education and related services, and special accommodations to children who are disabled.

Under state and federal laws, public schools are required to provide a free, appropriate, public education to all children who are disabled between the ages of three and twenty-two, and may not, on the basis of disability, discriminate against these children.

This Memorandum is part of an effort to locate and serve those children who may need special education and related services, and/or special accommodations.

If you know of a child, age three to age twenty-two, who may qualify for, and is not now receiving available services, please call or write:
